Monthly Public Health Resources Newsletter

In this issue

November is packed with live webinars! As a result, this month's issue does not feature any On-Demand sessions. If you need educational resources on a particular topic, please [reach out to the library](#)—we're here to help you find what you need.

In recognition of Transgender Awareness Week (Nov 13–19) and Transgender Day of Remembrance (Nov 20), this month's featured resources include an episode from the *Population Healthy* podcast on Gender Affirming Care, along with a recent National Collaborating Centre for Determinants of Health webinar titled *Promoting the Rights and Health of Transgender People as a Public Health Equity Priority*. Additionally, on Transgender Day of Remembrance, there will be a webinar on *Introduction to Affirmative Language for the Transgender and Gender Diverse Community*, listed in the Up-coming Webinars section.

To learn more about what's happening in November, please visit the [HEART Multi-Faith/Cultural Calendar](#) and visit the Government of Canada [calendar of health promotion days](#).
